

VELCRO® MOUNT WOOL PADS

STANDARD MOUNT WOOL PAD

**1075
DURA-BUFF™**

- Economical compounding and general purpose pad
- Lightweight composite backing provides strength and durability
- Easy change Velcro® design
- 7.50" curved cutting pad
- Will withstand repeated washings
- 100% wool, 4 ply

**LV-80-C
LAMBS WOOL PAD**

- For polishing and final finish
- Easy change Velcro® design
- 8.00" curved finishing pad
- 50/50 lambs wool/synthetic blend
- 1.50" pile offers extended wear
- Will withstand repeated washings

**VC-80-C
CUTTING PAD**

- For compounding and general purpose
- Easy change Velcro® design
- 8.00" curved cutting pad
- 100% wool, 4 ply twisted yarn
- 1.50" pile offers extended wear
- Will withstand repeated washings

**VA-80-C
50/50 WOOL/ACRYLIC BUFFING PAD**

- For light compounding and polishing
- Easy change Velcro® design
- 8.00" curved cutting pad
- 50% Wool / 50% Acrylic, 4 ply twisted yarn
- 1.50" pile offers extended wear
- Will withstand repeated washings

**SS-80-C
SUPER SAUCER**

- For heavy duty compounding and polishing
- Standard mount 8.00" curved cutting pad
- 100% wool, 4 ply twisted yarn
- 1.50" pile offers extended wear
- Will withstand repeated washings

ELIMINATOR™ VELCRO® MOUNT FOAM PADS

**VF-85-C
ELIMINATOR™ YELLOW
HEAVY CUT COMPOUND PAD**

- Firm yellow material is designed for compounding
- Unique curved design ensures safe, contour buffing
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 50 Pores Per Inch (ppi)

**GV-85-C
ELIMINATOR™ GREEN
MEDIUM CUT COMPOUND PAD**

- Firm green material designed for light compounding & polishing
- Unique curved design ensures safe, contour buffing
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 60 Pores Per Inch (ppi)

**RV-85-C
ELIMINATOR™ CHARCOAL
LIGHT CUT POLISH PAD**

- Soft charcoal material is designed for light polishing & finishing
- Unique curved design ensures safe, contour buffing
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter,
- 70 Pores Per Inch (ppi)

**BV-85-C
ELIMINATOR™ BLUE
FINISH PAD**

- Soft blue material designed for finishing
- Unique curved design ensures safe, contour buffing
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 80 Pores Per Inch (ppi)

**WV-85-C
ELIMINATOR™ WHITE
FINAL FINISH PAD**

- Super soft white material is designed for final finishing
- Unique curved design ensures safe, contour buffing
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 100 Pores Per Inch (ppi)

**YW-85-C
ELIMINATOR™ WAFFLE YELLOW
HEAVY CUT COMPOUND PAD**

- Firm yellow material is designed for compounding
- Unique curved design ensures safe, contour buffing
- Waffle construction ensures superior venting
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 50 Pores Per Inch (ppi)

**GW-85-C
ELIMINATOR™ WAFFLE GREEN
MEDIUM CUT COMPOUND PAD**

- Firm green material designed for light compounding & polishing
- Unique curved design ensures safe, contour buffing
- Waffle construction ensures superior venting
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 60 Pores Per Inch (ppi)

**CW-85-C
ELIMINATOR™ WAFFLE CHARCOAL
LIGHT CUT POLISH PAD**

- Soft charcoal material is designed for light polishing & finishing
- Unique curved design ensures safe, contour buffing
- Waffle construction ensures superior venting
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 70 Pores Per Inch (ppi)

**BW-85-C
ELIMINATOR™ WAFFLE BLUE
FINISH PAD**

- Soft blue material designed for finishing
- Unique curved design ensures safe, contour buffing
- Waffle construction ensures superior venting
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 80 Pores Per Inch (ppi)

**WW-85-C
ELIMINATOR™ WAFFLE WHITE
FINAL FINISH PAD**

- Super soft white material is designed for final finishing
- Unique curved design ensures safe, contour buffing
- Waffle construction ensures superior venting
- Reticulated foam composite resists tearing or chunking
- Quick change Velcro® mount
- 1.50" thick for longer pad life
- 8.50" Diameter
- 100 Pores Per Inch (ppi)

MINI ELIMINATOR™ (6" FOAM PADS)

Flat construction provides maximum variable pad pressure • Quick change Velcro® mount • 1 1/2" thick for longer pad life • 6" Diameter

YM-6-F

Firm, high density yellow polishing pad. Specially designed for compounding

CM-6-F

Soft charcoal polishing pad. Specially designed for light polishing and finishing

WM-6-F

Super soft white final finishing pad. Specially designed for final finishing

BUFFING ACCESSORIES

MBP-475 43/4" VELCRO® BACKING PLATE

- For use with easy change Velcro® pads
- J-Hook design fits loop material backing
- 4.75" diameter fits 6" diameter pads
- 5/8"-11 thread (male) fits most polishers/sanders

VBP-12 VELCRO® BACKING PLATE

- For use with easy change Velcro® pads
- J-Hook design fits loop material backing
- 7.00" diameter fits 7.50" - 9.00" diameter pads
- 5/8"-11 thread (female) fits most polishers/sanders

PB-12 MICROFIBER POLISHING BONNET

Microfiber terry bonnets feature ultra thin fibers that penetrate and remove polish and wax residue to give a deep down shine without scratching. Designed to fit 11" orbital polisher.
