

# QUALITY, SERVICE & RELIABILITY

## OUR COMMITMENT TO PROFESSIONAL CAR CARE FOR OVER 73 YEARS

**QUALITY** is the foundation on which Jack Burford, the late founder of Burford Auto Finishes, built this business. Maintaining this high standard of quality for more than half of a century has given us our reputation as a leading manufacturer in the industry today. Rigorous quality controls ensure consistency and uniformity throughout a product's life cycle. Each product is tested and graded for technical characteristics specified by BAF chemists, such as performance, color, pH, viscosity, climate testing and more. In addition, we perform date coding and sample retention for long term observation. This helps assure reliable, uniform performance in the final product wherever it might be used.

Florence, KY

**INNOVATION** continues today under our staff of experienced chemists that work constantly to create new and exciting products and to perfect existing products in response to distributor feedback and changes in our industry.

Tustin, CA

**SERVICE** to the industry with world wide distribution is only a small part of what we offer the professional in the field. Since 1935, BAF Industries has been manufacturing and distributing PRO® Products to automotive dealerships, detail shops, car washes, auto auctions and body shops.

When you buy PRO® Products, you receive instant protection because everything we sell conforms to U.S. Federal Packaging Specifications. We also offer you peace of mind by supplying you with Material Safety Data Sheets (MSDS) and informative product bulletins for each product we manufacture.

As one of the largest automotive chemical packaging plants in the industry today, BAF has the capability of shipping finished goods in container sizes ranging from pints to drums. With our factory in Florence, Kentucky, PRO® Products are delivered quickly and efficiently. A large stock of finished products is kept on hand, available for immediate shipment.

**RELIABILITY** in PRO® Products has been our trademark since our inception in 1935. You know you can always expect consistent quality.

The Professional's Choice Since 1935

## OUR WORLDWIDE DISTRIBUTION NETWORK

PRO®'s Distributor Network provides full service, both domestically and internationally. Since 1935, we've been committed to professional automotive finish care. Not just by manufacturing quality products, but also providing the industry with personal service and the very latest in product information. Each PRO® Distributor is a trained car care expert. Each knows exactly how PRO® Products work and how they are best applied. BAF's Technical and Communication Departments keep PRO® Distributors informed of the latest industry trends, technical bulletins and innovations. It is this professional approach that gives reconditioning professionals everywhere a leading edge.

Your PRO® Distributor carries the most complete line of car care products available today. From the highest quality compounds, polishes and waxes to dressings, aerosols

and buffing pads, your PRO® Distributor has it all!
