C-13 SUPER GLASS GLEAM

FEATURES AND BENEFITS

C-13 is a professionally balanced formula to not only clean glass but to enhance its beauty to the fullest. By using an alcohol base it is possible to add heavy duty cleaners and dryers to make this product very user friendly. Increased brightening agents give C-13 the look that only professionals can administer. C-13 is biodegradable. It will not smear or streak and leaves no film on glass surfaces. A mild fragrance has been added to please everyone and will make the lasting effects of this fine product easy on the eyes and pleasant to savor. C-13 will not harm and is completely safe on tinted windows. Another feature is the gloss C-13 achieves on mirrors and chrome surfaces.

RECOMMENDED FOR

C-13 rapidly dissolves and cleans dirt, smoke film, dust, oil, bugs and water spots. It does all the work without leaving smears, streaks or residue. Use C-13 on all glass, mirrors, chrome and plexiglass. For special use by professionals in service stations, detail shops, car dealerships, body shops, auto auctions, car washes, households, restaurants, and anywhere else there is a need for clean glass.

APPLICATION

SHAKE WELL BEFORE USING. In a sprayer bottle, mix 1 part C-13 with up to 3 parts water. For tough applications, dilute 1:1 with pistol sprayer. Apply small amount

to surface area to be cleaned and wipe immediately with a clean, dry PT-7 Micro-fiber towel. Reverse toweling and polish until surface is dry and sparkling.

SPECIAL NOTES

C-13 Super Glass Gleam is also great for tile, porcelain and other non-porous surfaces.
