- **Wipes Away Paint, Primer & Undercoating Overspray**
- **Great for Removing Scuff marks, Felt Pen, & Indelible Ink Marks**
- **Doubles as Multi-Purpose Solvent**
- **Safe For Use On Most Finishes**

## **C-16 POWER-SOL™ Overspray Solvent**

### FEATURES AND BENEFITS

C-16 Power-Sol is one of the latest multi-purpose products in the PRO® line. Power-Sol is an industrial grade solvent formulated to quickly remove paint overspray from exterior OEM paint finishes. In addition, Power-Sol doubles as a multi-use solvent for removal of tar, grease, wax, adhesives and silicones and many other paint contaminants.

### RECOMMENDED FOR

Recommended for OEM paint finishes damaged by paint overspray, fallout and other contaminants. Power-Sol is great for removing cosmoline, tar, grease, wax, adhesives and silicones. Removes scuff

marks on kick panels, felt pen & indelible ink markers on most surfaces. May be used for graffiti removal on commercial paint finishes such as DuPont's Imron. This product is recommended for professional reconditioning and body shop use only.

### APPLICATION

**SHAKE WELL BEFORE USING.** Use caution on plastic surfaces. When using on plastic surfaces, always pre-test in hidden area to insure Power-Sol will not bleed color. Apply Power-Sol to a clean cloth or wax applicator and wipe affected area to remove contaminants. Follow by wiping with clean, dry cloth. Stubborn areas may require second application.

### SPECIAL NOTES

Power-Sol is an efficient paint remover. If left on painted surface for prolonged period of time, it will damage paint finish. Do not use on freshly painted surfaces. Not for use on Lexan, clear instrument panels or painted plastic interior pieces.

### PACKAGING

GALLON/4 PER CASE  
5 GALLON PAIL  
55 GALLON DRUM
