C-61

PRO®-SOL™

Pre-Cleaner Solvent

FEATURES AND BENEFITS

C-61PRO®-SOL™ is one of the most popular products in the PRO® car care line. C-61 is a multi-use, fast evaporating solvent formulated for the removal of all surface contaminants. This special combination of solvents allows for deep cleaning of the surfaces of automobile interiors and exteriors. Because C-61 works so quick and clean, it leaves no oily film or residue. PRO®-SOL™ contains emulsifiable surfactants which enables the surface to be rinsed easily with water. You may even install pin striping or paint over it. Will not harm cured paint finishes. C-61, PRO®'s all purpose solvent, outperforms all competitive solvents on the market. We have been doing it for years!

RECOMMENDED FOR

C-61 was formulated primarily as an adhesive label and silicone remover. Also, great for removing tar, wax, grease, light oxidation, paint oversprays, road scum and spots in carpeting. PRO®-SOL™ is ideal for body shop use in preparing painted surfaces for good adhesion of subsequent new paint coats.

APPLICATION

SHAKE WELL BEFORE USING. Apply C-61 to clean, dry cloth or directly to small area and wipe surface immediately to remove all surface contaminants. Stubborn areas may require a second application.

SPECIAL NOTES

Use carefully on freshly painted surfaces. If left on any surface for a prolonged period of time, may possibly damage the paint film.

PACKAGING

GALLON/4 PER CASE
5 GALLON PAIL
55 GALLON DRUM
