P-47 AUTO AUCTION PREP™

FEATURES AND BENEFITS

P-47 AUTO AUCTION PREP™ the "king" of fast acting one step cream waxes designed specifically for auto auction professionals. P-47 contains polymers, copolymers, mild cleaners and color brighteners that produce a deep, lustrous shine with excellent water beading and detergent resistant qualities. Auto Auction Prep™ buffs autos in about half the time of conventional cream waxes. P-47 leaves a long lasting, protective finish that resists the elements. P-47 buffs with ease without leaving swirls, streaks or smears. The wide range of auto finishes that Auction Prep™ masters is what makes it so valuable. The quickness in accomplishing optimum results is another key to the success of this product.

RECOMMENDED FOR

P-47 Auto Auction Prep™ is a one-step cleaner wax that needs no other topping. It is safe on all paint finishes. Designed and formulated to get out buffer and swirl marks as it removes minor imperfections, filling as it goes. Hair line and cobweb scratch marks disappear as this nonabrasive cream wax gives you high speed, high quality results on all types of paint finishes.

APPLICATION

SHAKE WELL BEFORE USING. For hand application, apply P-47 from a dispenser bottle to a clean cloth and rub into finish thoroughly. Let dry to a haze and wipe to a high luster using a PT-8 Microfiber

cloth. For high speed machine application, apply P-47 from a dispenser bottle to buffing pad (VC-80-C Wool Cutting Pad) for a more aggressive buffing surface or (VF-85-C Foam Pad) for a moderate buffing surface and work P-47 into the painted surface buffing while wet to a high luster.

SPECIAL NOTES

Do not apply P-47 in direct sunlight or to a hot surface.
