- **VOC Compliant**

## **P-58 Fantastic™ Plastic Polish**

### FEATURES AND BENEFITS

P-58 Fantastic™ Plastic Polish is an all purpose liquid plastic polish that was formulated to clean, shine and protect both colored and clear plastics. P-58 Fantastic™ Plastic Polish removes Yellow film, cloudy streaks, hairline scratches, haze and halos from the most sensitive plastics. P-58 Fantastic™ Plastic Polish cleans the surface freeing it from smudges, dust and fingerprints. The tough cleaning formula combines with a gentle polishing process leaving the surface sparkling clean, clear, and bright. P-58 Fantastic™ Plastic Polish is highly versatile whether it's turn signal lenses, center caps, brake lights convertible windows or the gauge instrument cover.

P-58 Fantastic™ Plastic Polish protects new and old plastic surfaces against further deterioration from harsh elements such as sun, smog, rain, snow, road debris, grime, salt, chemicals and airborne contaminants. Fortified with durable and effective polymers. P-58 Fantastic™

Plastic Polish acts like a barrier, protecting automotive plastics from the deterioration of daily driving. For Hand or Machine use. VOC Compliant.

### RECOMMENDED FOR

P-58 Fantastic™ Plastic Polish is excellent on headlight covers, taillight lenses, bug deflectors, instrument covers, convertible top covers and motorcycle windscreens. P-58 Fantastic™ Plastic Polish cleans and protects new and old plastic surfaces. P-58 Fantastic™ Plastic Polish provides a static-free coating that repels water and dust on both acrylic (Plexiglass®, Lucite®, Acrylite®) and polycarbonate (Lexan®, Makrolon®) surfaces. Also, great on non-plastic surfaces such as Corian®, painted enamel, Formica®, linoleum, marble and porcelain

### APPLICATION

**Directions: Shake well before using.** For your protection, safety glasses and rubber gloves are recommended while using this product.

### **Hand Use:**

Apply P-58 liberally to a dry BR-500 Microfiber applicator and rub briskly over a small section. Applying firm pressure, work product thoroughly into the surface until polish has almost disappeared.

### **Machine Use:**

Apply P-58 liberally to a dry BR-500 Microfiber applicator and rub briskly over a small section. Applying light pressure, move buffer across the surface in a straight line pattern. Work product thoroughly into the surface until polish has almost disappeared. Wipe entire surface with a dry PT-8 Microfiber towel.

### PACKAGING

22 OZ/12 PER CASE
