## S-81

# WIPE-ON™ VINYL Dressing & Protectant

### FEATURES AND BENEFITS

S-81 WIPE-ON™ VINYL DRESSING restores, protects and beautifies in one operation. S-81 is a conditioning restorer that softens, brightens and renews faded surfaces of vinyl, plastic, rubber and leather. Wipe-On™ Vinyl Dressing leaves a transparent, high gloss coating that becomes water repellent upon drying. Penetrates to provide a protective shield to repel dust and to prevent cracking, fading and other damage caused by the sun's ultraviolet rays. S-81 protects without a greasy film or build-up.

### RECOMMENDED FOR

This nutrient rich formula is designed primarily for interiors but may be used on exteriors as well. S-81 may be applied to any color

surface to bring back its original beauty. Its versatility makes it great for vinyl roofs interiors, rubber moldings and trim, dashboards, bumper guards, tires and engine compartment dressing.

### APPLICATION

**Directions: Shake well before using.** For your protection, safety glasses are recommended while using this product. On badly weathered and soiled surfaces, pre-clean surface with PRO® C-49 Heavy Duty Interior Cleaner.

**Tires:** Hold sprayer 4" to 6" from tire and spray evenly on a clean, dry surface. Allow 2-3 minutes for runs or drips to dissipate. Dries to a high gloss. For less gloss, apply with sponge or terry applicator.

**Vinyl, Rubber & Plastic Trim:** Wipe on pre-cleaned surface and let dry.

### SPECIAL NOTES

Use only as directed. Not for use on or near clear plastic, (instrument panels), vehicle controls (pedals, grips, steering wheels) or brake discs/drums. Do not drive vehicle immediately after application when tires are wet. Wipe off excess material to avoid unabsorbed product from spinning off tires onto body panels. Refer to MSDS for additional protective measures.

### PACKAGING

PINT/12 PER CASE  
GALLON/4 PER CASE  
5 GALLON CUBE
