S-95

NON-SILICONE RUBBER DRESSING

FEATURES AND BENEFITS

S-95 Non-Silicone Rubber Dressing is an all purpose, ready to use, rubber dressing specially designed for those who wish not to or cannot use silicone dressings.

S-95 is a moderate gloss, water base formula designed to restore the "new look" to rubber, vinyl and plastic.

Contains no silicones, petroleum distillates or toxins, eliminating fisheye, fire and hazardous problems. S-95 is completely non-flammable, non-toxic and biodegradable.

Non-Silicone Rubber Dressing contains a pleasant bubble gum fragrance.

RECOMMENDED FOR

S-95 is recommended for body/paint shops, detail shops, dealerships, car washes and auto auctions. Use Non-Silicone Rubber Dressing on all types of interior (except leather)

and exterior appointments such as: tires, dashboard, console, mouldings, bumpers, trim, etc... Also, great as an engine compartment dressing, making belts, hoses and wires look like new.

APPLICATION

Directions: Shake well before using. For your protection, safety glasses are recommended while using this product. On badly weathered and soiled surfaces, pre-clean with C-52 Whitewall Cleaner or C-49 Heavy Duty Interior Cleaner depending on surface.

Tires: Hold sprayer 4" to 6" from tire and spray evenly on a clean, dry surface. Allow 2-3 minutes for runs or drips to dissipate. Dries to a high gloss. For less gloss, apply with sponge or terry applicator.

Rubber & plastic trim: Wipe on pre-cleaned surface and let dry.

SPECIAL NOTES

Use only as directed. Not for use on or near clear plastic, (instrument panels), vehicle controls (pedals, grips, steering wheels) or brake discs/drums. Do not drive vehicle immediately after application when tires are wet. Wipe off excess material to avoid unabsorbed product from spinning off tires onto body panels. Refer to MSDS for additional protective measures. Not recommended for use on leather.

PACKAGING

GALLON/4 PER CASE
5 GALLON CUBE
55 GALLON DRUM
